

ERICE 19-24 MAY 2023

Frontiers in Water Biophysics www.waterbiophysics.eu

Call for Abstracts:

The Conference and School on *Frontiers in Water Biophysics*, which will be held in Erice (Italy) on **May 19-24, 2023**, at the **ETTORE MAJORANA FOUNDATION AND CENTRE FOR SCIENTIFIC CULTURE** (www.ccsem.infn.it). In addition to water biophysics session the conference will focus on: **WATER IN DNA/RNA ORIGAMI AND BIOMOLECULAR CONDENSATES**.

In the tradition of the previous editions, Trieste (2010), Perugia (2012), and Erice (2015-2017-2019), the Conference's **purpose** is to offer the opportunity of knowledge interchange among researchers investigating the properties that make water unique in all aspects of human life and to favor the interdisciplinary cross-fertilization. Following the *Ettore Majorana Foundation's* aims, there will be space for Introductory Tutorials for post-graduate students and post-docs on the conference topics, including the active role of water in biological systems.

DEADLINES

- **March 20, 2023:** Abstract submission deadline for both oral and poster presentations
- **March 31, 2023:** Communication of all accepted papers and posters
- **April 21, 2023:** Completed registration and fee payment

A number of **scholarships** are available for PhD and young post-docs students in the form of (partial) fee waivers ([instructions are in the Pre-registration form](#)).

The preliminary list of Invited Speakers is available at the conference website: <http://www.waterbiophysics.eu/en>
